Enhanced Recovery After Surgery (ERAS)

Who is involved in ERASAlberta?

ERAS Site Teams surgeons, anesthesiologists operations leaders, and other quality council members, along with support from a provincial ERAS Nurse Instructor(s) experienced in clinical engagement, clinical data, change management, and quality improvement. The ERAS Site Teams are connected through the ERASAlberta provincial coordination team.

The ERASAlberta work is lead and guided by a provincial implementation lead, an integrated research lead, and medicine and surgeon co-leads. The Surgery Strategic Clinical Network (SSCN) provides ERASAlberta with access to executive leadership, advanced clinical data analysis, research opportunities and knowledge translation.
