

Enterprise Medical Record - Advanced EMR

The Advanced EMR Options has three parts: Visit Selection screen, Summary List and Lifetime Summary option. Using the Advanced EMR Options changes the look and feel of the EMR.

Visit Selection Screen

The visit selection screen will consist of three tables at the top: Time Frame, Visits, and View.

Time frame (1, 2, 3, 5,7,10 years) Only appropriate time frames will display. I.e. if the patient/client/resident does not have any visits over 5 years, then 7 Years and 10 Years will not display in the table.

Visits: Only appropriate visit types will be illuminated. If there are no visits of a particular type than that button will be low-lit.

Time Frame	VISITS	View
1 Year	Inpatient	Selected
2 Years	Emergency	List
3 Years	Outpatient	All
5 Years	Office	
· · · · · · · · · · · · · · · · · · ·	Ltc	
	Home	
	By Diagnosis	
	By Type	
	All	

If a specific visit is selected then **Selected** becomes available in the View section.

Inpatient	12/2/15	2 South Ne	Delacruz,Christa L	Newborn

a. Visit History Information

The last visit from each of the following "types" will display:

- Inpatient
- Outpatient
- Emergency
- Office
 - Office will be lit for specific type of visits. POV (Patient Office Visit).
 - POV registrations are used for transcribed reports that don't have an actual face to face visit or visits that have preadmission histories done. This registration type is only used in certain former health regions.

b. Visit History Graph

If the "more Info" **1** icon is displaying on the Visit History header there will be more information regarding the visits.

	<u> </u>
