

Pediatric Rehabilitation Community Contact Information

Pediatric rehabilitation services are offered across Alberta. They are available in each of Alberta Health Services' (AHS) zones: North, Edmonton, Central, Calgary and South.

Parents and legal guardians can use the maps below to find contact information for pediatric rehabilitation services in their zone or community. Parents and legal guardians can self-refer their infant, child or youth for community services.

AHS offers services for children and youth who have (neuro) developmental and/or medical conditions. Services focus on:

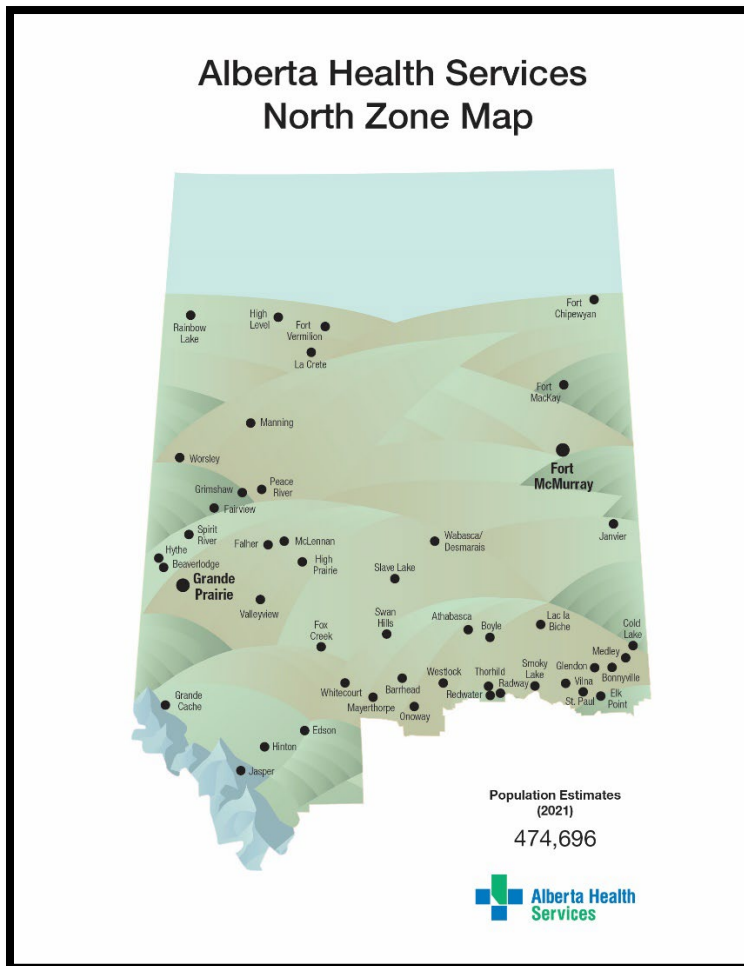

- Health and developmental needs of infants and children in the early years
- Episodic care for children and youth in the child and youth years

You can also find and learn more about services on [Pediatric Rehabilitation](#). Choose 'Find Pediatric Therapy Services' to start your search. The healthcare providers involved in care may vary.
