Big Lifestyle Changes with Wellness Kitchen Help

My name is Howard and I entered the hospital on May 19, 2010, following a massive heart attack. The damage to the left side of my heart was life threatening, what my doctor called a “Big Hit”. I spent over two months on a telemetry unit before the Cardiac Transplant Team took over my care. Although I was scheduled for surgery just after the September long weekend, I chose to try to continue my life with my own heart, as I saw this as the only chance that I would have to continue my career. Therefore, I needed to take more control of my own health to reach this goal.

I became aware of South Health Campus when I began to attend the Heart Failure Clinic at this hospital. The hospital itself immediately seemed so different. Open spaces to sit in, wide hallways, a YMCA and a Wellness Centre. Upon exploring the Wellness Center, I discovered the Wellness Kitchen where healthy cooking practices were being taught. As part of taking control of my own health, my goals were to cook and prepare food with less salt and healthier fats. I had commenced that on my own, searching out cookbooks and recipes for heart healthy food, but now I had a place to learn and interact with experts and other patients seeking the same goals. It was a great support. I did quite well with my damaged heart, but sadly didn't have the strength to return to work.

In 2016, my heart could no longer function to support me, and I underwent the surgery I had delayed in 2010. I had a left ventricular assist device (LVAD), inserted into my left ventricle to take over the function of pumping blood to my body. I then began the wait for an available heart (if you have not yet declared your willingness to be an organ donor please do so).

In 2017, I had my transplant and have been living an active life since then. I have maintained my lifestyle of cooking and controlling the food I eat, very low alcohol uptake, and lots of exercise. It's a lifestyle change that could spare you the same journey.

Check out the Wellness Kitchen, they can help you too.

I had a place to learn and interact with experts and other patients seeking the same goals.

Article by: Howard

Patient, Citizen Advisory Team member (South Health Campus), and participant in Wellness Kitchen in-person cooking classes.

Peanut Butter Energy Bites

Yield: 12 Bites

Ingredients:

Quick Oats	½ cup	(125 mL)
Coconut, unsweetened and shredded	½ cup	(125 mL)
Chia seeds	2 Tbsp	(30 mL)
Cocoa powder	2 tsp	(10 mL)
Chocolate chips, mini*	¼ cup	(60 mL)
Peanut butter**	½ cup	(125 mL)
Honey	2 Tbsp	(30 mL)
Vanilla extract	½ tsp	(2.5 mL)

***Note:** Substitute with dried cranberries or raisins if preferred.

****Note:** Substitute with another nut butter or a nut butter alternative if preferred.

Instructions:

1. Add the dry ingredients to a large bowl: the oats, coconut, chia seeds, cocoa powder, and mini chocolate chips. Whisk to combine.
2. Next add the wet ingredients: the peanut butter, honey, and vanilla extract.
3. Use a spoon to stir the wet and dry ingredients until fully combined. Keep stirring until all the dry ingredients are worked in and evenly coated with peanut butter and honey.
4. Using your hands or a cookie scoop, press and roll the mixture into twelve 1-inch balls. If the bites fall apart the mixture is too dry. Add extra peanut butter or honey to the mixture and reshape the bites.
5. Place energy bites into an airtight container. Store in the fridge for up to 1 week or freezer for up to 6 months.

Watch the video cooking demonstration for this recipe at:

<https://myhealth.alberta.ca/Alberta/Pages/high-calorie-high-protein-recipes.aspx>

Energy Bites are a great high energy and high protein treat.

They can be made ahead so they are ready when you need to grab a quick and tasty snack.

Emergency Preparedness

Online

Questions: Email HPDIP.MH.EarlyID@albertahealthservices.ca

Program Provider:

AHS Mental Health Promotion & Illness Prevention

8:30 am - 4:30 pm

Saturday, Sunday & some
holidays: 12:30 pm - 4:30 pm

Psychological First Aid for Supporting Indigenous Communities

Online

Questions: HPDIP.MH.EarlyID@albertahealthservices.ca

Program Provider:

AHS Mental Health Promotion & Illness Prevention

Psychological First Aid for Supporting Indigenous Communities uses a holistic, community wellness approach to help reduce levels of emotional distress for individuals, families, and communities through practical care, compassion, connection, and support from others.

This workshop is not intended to teach participants about specific cultural beliefs, traditions, and history or cultural competencies.

Led by AHS trained facilitators, PFA training is an interactive 3.5hr webinar that aims to share knowledge, teach skills, build confidence, and increase capacity to support people in the face of a disaster or emergency.

10:30 am–12:00 pm

Registration: See links below.

You do not need to attend all of the sessions.

Questions: AHSWellnessExchange@ahs.ca

1. Problem Solving

It's important to clearly define our problems and look at all possible solutions. Learning ways to problem solve effectively helps us address the entire situation, influence what we can, and increase our confidence in the decisions that we make.

April 9 10:30 am–12:00 pm

Registration: <https://qrco.de/beqWDF>

2. Positive Activities

Positive activities provide us with opportunities for enjoyment, improve our mood, increase our sense of control over our life, and create hope.

April 16 10:30 am–12:00 pm

Registration: <https://qrco.de/beqWFh>

3. Managing Reactions

Physical and emotional reactions happen as life stressors occur. Having confidence that we are able to effectively manage our emotions is important, as it helps protect our well-being, maintain our healthy connections, make effective decisions, and respond in healthy ways.

April 23 10:30 am–12:00 pm

Registration: <https://qrco.de/beqWHH>

Wellness Exchange topics continued on page 21.

Five wellness topics,
one topic per week.

Choose the topics that
are right for you.

Wellness Exchange continued...

Online

4. Helpful Thinking

Our thoughts have an impact on how we see the world, how we feel, and how we behave. Shifting our unhelpful thinking to more helping thinking is important to help increase our confidence in coping with stressors, improve our mood, and reduce the intensity of our reactions.

April 30 10:30 am – 12:00 pm

Registration: <https://qrco.de/beqWIV>

5. Healthy Connections

Social support and connecting with others helps us feel a sense of belonging and reduces isolation. Building healthy social connections helps increase our confidence and our overall well-being.

May 7 10:30 am – 12:00 pm

Registration: <https://qrco.de/beqWJo>

Program Provider: Parkinson Association of Alberta

When: Thursdays
10:00 am - 6:30 pm
April 25
May 23
June 27
July 25
August 29

This program is ideal for those who have been recently diagnosed with Parkinson disease, have a family member/friend who has been recently diagnosed with Parkinson's; and/or those who would like to know a little more about Parkinson disease.

This session will go over what Parkinson disease is, how it is diagnosed, motor and non-motor symptoms, and more. The education session includes a 45 minute presentation and a 45 minute discussion period where you can ask questions.

Registration: 1-800-561-1911

AlbertaQuits

Online

Program Provider:

Alberta Health Services
– Tobacco, Vaping, and
Cannabis Program

Registration:

<http://tinyurl.com/AlbertaQuits>

AlbertaQuits will help you get prepared to quit or reduce smoking or using tobacco products. You'll learn what to expect and how to prepare for road blocks on your journey to successfully quitting.

And choosing to make a change for yourself does not mean you have to quit by yourself. To support you on your journey to quit success, there are several options to choose from.

1. Phone Support

The AlbertaQuits helpline is FREE for all residents of Alberta, open from 8AM to 8PM seven days a week. Call toll-free at 1-866-710-7848 to receive confidential, non-judgmental support from Quit Counsellors. They will help you deal with cravings and help you stay motivated. Translation services are also available.

2. Text Support

AHS offers a FREE 3-month text messaging program that delivers motivational messages, advice and tips to your cell to help you quit. The text service has been enhanced to include support for quitting vaping and a live chat feature with quit counsellors.

The free text service is designed for those who are ready to set a quit date within the next 30 days, or have recently quit. Messages are tailored to your quit date.

Text the word ABQUITS to number 123456 to register for free.

When you register:

1. You will be asked to text back your quit date in yyyy-mm-dd format.
2. You will receive a confirmation message and a maximum of 3 messages per day.

You can also use some keywords like CRAVE (info about beating cravings) or STRESS (coping with stress) to get extra, on-demand, support when you need it. Get a list of available keywords by texting KEYWORDS on your phone.

3. Group Support

QuitCore is a FREE group support program that provides Albertans (18+) with the tools and skills they need to quit using tobacco. As a part of Quitcore, you will join six 90-minute VIRTUAL sessions that are guided by a trained facilitator.

Call the AlbertaQuits Helpline at 1-866-710-7848 and a counsellor will help you find and register for an upcoming session.

4. Counselling Support

Did you know that your healthcare provider, may provide a one-to-one counselling service to help you stop smoking? Visit your local pharmacy or call your doctor to find out.

You can also call the AlbertaQuits Helpline at 1-866-710-QUIT to help you find a counsellor near you.

More Information: <https://albertaquits.healthiertogether.ca/>

The Alberta Healthy Living Program

The Alberta Healthy Living Program can help you
POWER UP YOUR HEALTH.

Our program offers free programs and services that can help you live your best life with a chronic condition.

All of our programs and services are available to Albertans ages 18 and over.

How can we help you?

General and Condition-Specific Health Education Classes and Self-Management Workshops

*Online & In-person options available**

Program Provider: Alberta Healthy Living Program

We offer general and condition specific classes about managing diabetes, healthy eating, heart health, gut health, COPD, sleep, emotional wellness, osteoarthritis, weight management and more.

In addition, our supportive 6 week Better Choices, Better Health® workshops can provide you with a number of tools and support to manage your chronic (long-term) health conditions. Workshops are offered in English, Cantonese, and Tagalog.

Supervised Exercise

*Online & In-person options available**

Program Provider: Alberta Health Living Program

Learn how to exercise safely with a chronic condition. Our Wellness Navigators, who are healthcare professionals, help you exercise safely with a health condition. When you join this program, your Wellness Navigator will help you make an exercise plan. They will also help you access services that can help you reach your goals, like one of our virtual or in person group exercise classes, one on one health coaching, or our general or condition specific health education classes. They will follow you every step of the way and will be there to help you succeed in reaching your goals.

Watch this short video to get an idea about how our supervised exercise program can help you take charge of your health.
