

# Basic Diabetes Management

These classes are for adults living with prediabetes, Type 2 diabetes, or are at risk of developing diabetes. Join an online class to learn about:

- What diabetes is and how it is diagnosed
- The importance of monitoring and managing blood sugars
- Preventing or delaying complications
- How food affects blood sugars, including what, when and how we eat
- Common medications used to manage diabetes

The longer classes also talk about: what to do when you're feeling sick; staying active; and taking care of your feet.

Class Type	Date	Time	How to Register
